Invitation of Tender For

P.C.C.F. Dev.
Jharkhand, Ranchi

**Selection of suitable agency for carrying out Forest Boundary Survey by DGPS/ ETS
& supply and erection of stone monoliths for control stations.**

1. The Tender notice published in Newspapers vide Tender Notice No. – 03/2018 is a part of this Tender Document.

1. Project Background

The Jharkhand Forest Department has decided to carry out DGPS or Electronic Total Station (ETS) or combination of both surveys of notified forest land and digitization of forest boundary to bring it to the GIS platform. Preparation of Geo-referenced map of cadastral sheet and Geo-tagged photographs of each boundary pillar and reading of each boundary pillar in geographic co-ordinate system- WGS84 datum of the respective Universal Transverse Mercator (UTM) Grid Zone. It is intended to undertake DGPS/ETS survey work to cover approximately **40000 ± 5000 (Forty thousand ± Five Thousand)** forest boundary pillars across various forest divisions of Jharkhand during the financial year 2018-19. The final number of boundary pillars to be offered for DGPS/ETS survey work will be decided at the time of award of work, and the same is liable to further change as per performance of selected bidders and the requirement by the technical committee of the department during the course of the year.

For undertaking the above task of geo-referencing of cadastral map, satellite data and digitization of forest boundary pillars, Jharkhand Forest Department needs support services from agency/ organization/company, having experience in the area of **Land Survey/survey of the forest boundary by using DGPS/ETS Technology**. The present requirement is for the precise determination of geo-coordinates of each boundary pillar, boundary of the forest area and supply of Geo-referenced maps based on Cadastral map.

2. Scope of work

- a) The Scope of work includes identification & demarcation of forest boundaries by DGPS/ ETS Survey wherever necessary and documentation of forest records including clear marking of forest boundary and preparation of Geo-referenced maps for approx. **40000 ± 5000 (Forty thousand ± Five Thousand)** forest boundary pillars under various forest Divisions of the state of Jharkhand.
- b) The agency will prepare and supply Geo-reference maps of scale 1:3960; same as that of Cadastral Map, along with report consisting of all the readings and photographs at each boundary pillar as evidence for notified forest land in GIS usable format in geographic coordinate system-WGS84 datum of the respective zone.
- c) Submission of RAW (for Rover and Base) as well as post processed/real time differentially corrected (for Rover) DGPS readings (along with source file, all errors charts and 1. Base line Reports/Triangulation Reports 2. Network Reports 3. Loop Closure Reports etc., whichever is applicable at each Boundary Pillar along the periphery of the notified forest land, in RINEX or native format (8 Decimal places in degrees for latitude and longitude including height above MSL and HAE in cm) with area and perimeter shall be submitted every week to GIS cell of Forest Department. The Bidders should submit processing report output in soft copy weekly.
- d) The survey shall be performed using DGPS in real time or post processed mode. However, the survey shall be performed using ETS in shadow areas and Cadastral map should be geo-referenced using GCPs collected by using dual frequency DGPS receivers.

- e) Moreover, the Geo-referenced maps should be superimposed on satellite imagery and is the responsibility of surveying agency to procure the satellite imagery from NRSC, Hyderabad.
- f) Field training about the procedure of the DGPS survey will be imparted to the field staff & officers of the concerned forest divisions.
- g) Scanning of all documents including Gazette notification of Forest land, Cadastral map, etc. shall be done by the agency.
- h) Supply and erection of RCC monuments of size 1.5m x 23cm x 23cm at each control point shall be done by the agency.
- i) The agencies are expected to perform following activities:
 - (i) Assigning the precise geo-coordinates of the boundary pillars in the forest area.
 - (ii) To make a close survey of all the boundary pillars and also survey and marking of the missing boundary pillars of the forest area using dual frequency DGPS in RTK mode / ETS from the temporary GCP and also the offsets like prominent rivers and any other natural feature may be marked.
 - (iii) To prepare and supply Geo-referenced data in .shp and .kml format.
- j) One set of hard copy of maps and readings of each location in MS Excel (latitude and longitude in WGS84 datum and height above MS level HAE in cm) certified by the respective surveyor/ Amin, Forest guard, Forest Beat Officer, Forest Range Officer, ACF and DFO should be submitted.
- k) At place of missing boundary pillar a pit of size 2'X2'X2' should be dug up and a 10 cm layer of charcoal be placed in the pit at the bottom. The Charcoal layer will be followed by a 10 cm layer of lime. Then a coloured (**half green and half red** in paint) wooden post of hardwood not less than 10 cm diameter and 5 feet height shall be firmly fixed vertically straight in the pit in such a manner that 3 feet of it is kept above the ground surface. The post will be numbered with the no. of Boundary pillar and DGPS readings will be taken by the forest personnel. Photographs of the post along with detail surrounding will be taken. In case temporary boundary pillar is found at the point of DGPS survey point then the GPS Co-ordinates should be written on the boundary pillar.
- l) The Agency will provide laminated **geo-referenced maps** of the villages showing important landmarks apart from the forest boundary pillar locations. The map shall also be overlaid with the latitude-longitude grid of proper intervals. In the margin a table showing the geo-coordinates of all forest pillar locations identified on the respective map should be included.
- m) The agency will submit **photographs** from four directions every week with geo-coordinates inscribed on them of each respective pillar location identified showing the identification rod installed as prescribed and in presence of one personnel each of the agency and the Forest Dept. personnel who should be in proper uniform.
- n) The bidder should procure geo-referenced ground control points from Forest Survey of India/Survey of India in certified copy and should submit to PCCF Development.
- o) After survey of the points of a particular PF the area of the PF should be calculated so that the area can be compared with the records available in the Divisional Forest Officer.

To maintain the accuracy of measurements using DGPS/ETS measures shall be taken as follows:

2.1 *DGPS Survey:*

P.C.C.F. Dev.

- i. The Survey shall be carried along the boundaries which are invariably marked by the concerned local forest staff, conforming to the notifications, cadastral maps or other documents relating to location and extent of the land.
- ii. DGPS readings at each station along the periphery shall be taken by a Rover with a minimum observation period of 20 minutes. The DGPS Rover data with base station / control point data shall be differentially corrected, if real-time DGPS is not used. In addition to DGPS readings, simultaneously Handheld GPS readings must also be taken at each location for comparison, with the same observation period of 20 minutes.
- iii. **Establishment of Base stations (Control Points):**
 - Base Stations to be fixed by Multi/Dual frequency DGPS receivers with Survey of India (SOI)/FSI ground control points as reference to be obtained by the surveying agency from SOI/FSI at village tri-junction points.
 - The minimum observation time for base station shall be 12 hours from nearest SOI/FSI ground control point.
 - Required number of Primary Control Points shall be established in such a way that the distance between the DGPS base station and Primary Control Point (P.C.P.) shall be less than 30 km (for dual frequency DGPS Rovers) and the distance between P.C.P. and rover shall be less than 5 km.
 - The panoramic view surrounding the Base Station as well as antenna location showing the terrain in near proximity should be digitally photographed (should be taken in three or four different directions) and documented.
- iv. Rovers of Dual/Multiple frequency DGPS receivers shall be within a radius of 30 km from the base station. In case Single frequency DGPS receivers are used they should be used within 5 km radius of fixed base station. Readings of boundary pillars shall be taken with a minimum observation period of 20 minutes to differentially correct the DGPS Rover data with base station / control point data.
 - 01. In case real-time DGPS rovers are used, the Dual Frequency DGPS with OMNISTAR XP/HP connection shall be used alone and reading taken when accuracy is within 25 cm.
- v. The height above MSL shall also be recorded for location and must be linked to HAE with GTS (Great Triangulation Survey).

2.2 *Total Station Survey*

- a. Follow the procedure detailed in Para 2.1. Each Boundary Pillar must be fixed from at least 2 known locations.
- b. Geo-reference the data using GCPs. (GCPs shall be collected using dual frequency DGPS receivers in real-time/ post processed mode as per procedure detailed in 2.1.)
- c. The desired accuracy is 5 mm/km, and angles to $1^\circ/3600^\circ$. The distance between the Total Station and the target shall not be more than 500m.

2.3 *Conditions to be observed for Survey*

- i. The survey shall be conducted with similar instruments as far as possible.
- ii. DGPS instruments used for survey must be set-in to **Geographic Coordinate System – WGS84 Datum**.

iii. RAW (for Rover and Base) as well as post-processed/ real-time corrected DGPS readings (for Rover) for location; and the Handheld GPS along with original source file for each Survey Station shall be submitted every week or as soon as the work is completed, whichever is earlier, to the GIS Cell (In case real-time DGPS is used, the RAW and the differentially corrected readings in real-time for each Survey Station along with error profile and charts must be submitted).

iv. For each area a unique ID shall be given. All the features shall be recorded in this ID.

All the features will be extracted from this data.

Accuracy level (DGPS)

A. RTK (Real Time Kinematic)

Horizontal	-	10mm +1 ppm or better
Vertical	-	15mm+ 1 ppm or better

B. Kinematic

Horizontal	-	10mm+ 1 ppm or better
Vertical	-	15mm+ 1 ppm or better

C. Static

Horizontal	-	3mm + 0.5 ppm
Vertical	-	5mm + 0.5 ppm
Initialization time typically <10 seconds		
Initialization reliability typically >99.9%		

Accuracy level (ETS)

Angular Accuracy	-	2" or better
Least Count	-	0.5" or better
Distance Accuracy with Prism	-	1.5mm +/-2 ppm or better
Prism, high-precision DR Standard EDM		
Standard measurement	±(1 mm + 1 ppm) (0.0033 ft + 1 ppm)
Fast Standard	±(3 mm + 2 ppm) (0.01 ft + 2 ppm)
Tracking	±(5 mm + 2 ppm) (0.016 ft + 2 ppm)

To deliver the output in the following formats

- i. The co-ordinate list (excel format) should be supplied both for geodetic system (Lat/Long up to 5 decimal of the second) and Projected System – Universal Traverse Mercator, i.e., the UTM projection (northing/easting/height up to 5 decimals) of the respective zone.
- ii. Forest Boundary Pillar survey point coordinate in a GIS format (.shp file).
- iii. Surveyed Forest boundary in GIS format (.shp file).
- iv. The agency should submit a field drawing of the survey pillar along with field photographs from 4 directions (E, N, S & W).
- v. Geo-reference cadastral map in .shp file.

Note:

The Geo Co-ordinate list and other attributes of all the boundary pillars along with GTS points shall be submitted to concerned DFO in the state of Jharkhand and cannot be used by the agency for any other purpose for which the agency has to submit a declaration. The locations and IDs of all the control points of surveyed forest boundary should be submitted by the agency.

3. Tender documents

P.C.C.F. Dev.

Jharkhand Ranchi

Tender Notice documents shall comprise all the documents mentioned in the table of contents of this document. In addition to these any other documents/amendments/revisions or instructions issued by Department of Forest, Environment & Climate Change, Government of Jharkhand from time to time to bidders till due date of opening of the bids, shall also be deemed to be integral part of the tender document.
